#### STATISTICS

#### Integrated Trade Intelligence Portal (I-TIP)

Improving the transparency of trade policy measures

The Integrated Trade Intelligence Portal (I-TIP) provides a single entry point for information compiled by the WTO on trade policy measures. Containing information on over 25,000 measures, I-TIP covers both tariff and non-tariff measures affecting trade in goods as well as information on trade in services, regional trade agreements and the accession commitments of WTO members. Its aim is to serve the needs of those seeking detailed information on trade policy measures as well as those looking for summary information.

> Feedback on this page Please contact I-tip@wto.org

> See also: Economic research and analysis

Information note: > I-TIP

#### Trade in goods

I-TIP Goods provides comprehensive information on non-tariff measures (NTMs) applied by WTO members in merchandise trade. It includes members' notifications of NTMs, such as technical barriers to trade, sanitary and phytosanitary measures, and antidumping and countervailing measures, as well as information on "specific trade concerns" raised at WTO committee meetings.

> Go to I-TIP Goods

I-TIP also provides a direct link to the WTO's extensive tariff and trade databases.

> <u>Tariff Analysis Online Facility and</u> <u>Tariff Download Facility</u>

#### Trade in services

This integrated database — a joint initiative of the WTO and the World Bank — consists of information on members' commitments under the WTO's General Agreement on Trade in Services (GATS), services commitments in regional trade agreements, applied measures, and services statistics.
